

Don't Want to See Pricing?

with Fort Worth Wedding it is a treat!

We are commercial photographers – working for top magazines, businesses and organizations on a regular basis. Combine that knowledge and work-flow, we are used to preparing outstanding images fast and complete.

You pay one fee – and you own the entire group of photos! Yes – we don't have sales people – YOU are in control!

We come to your wedding with how many photographers you asked for and how many hours you need. We photograph everything we can at the wedding, provide you with a full listing of suggested images and formals, and within 24 to 48 hours – you have a complete online gallery ready to download, share on social media – whatever you want!

You may share that link with any family member or friend and they may purchase their own prints, digital images, books, canvases, anything they want, right there online!

This means you don't have to purchase photographs for everyone – and everyone may have what they like! YOU have the entire shoot digitally!

YOU are in control on how much you need from us. We are more than happy to meet with you after the wedding and go over books, large printed pieces, editing or other things you may wish to purchase – (most of our brides and grooms do this...) however, you don't HAVE to! Your wedding is right there for you to enjoy and share professional images immediately!

All fees are paid up front and in full. You don't have to worry about extra expenses at the end of the wedding. You know exactly what your photography and videography is going to cost.

In addition we offer:

- Engagement portraits (in studio or on location weather permitting)
- Bridal portraits (in studio or on location weather permitting)
- Make up & Hair Artists
- Videography services
